The Exerciser is wonderful for rehabilitating injured horses, and we can follow whatever regimen your veterinarian suggests. The Exerciser is wonderful for horses that need conditioning, as it builds muscle and stamina without the stress of weight. Younger or older horses particularly benefit from this. For the horse in training, utilizing the Exerciser as a warm up, can greatly reduce training time, and can also prevent injury by keeping the horse fit. The "hot" horse will be calmer with regular Exerciser sessions, perhaps combined with turnouts. Acclimating your horse to the EuroXciser is free.
